I am writing to apply for the Sachbearbeiter Customer Service und Kundenbetreuung position at MY Humancapital GmbH. Your description of a service-oriented role with structured administrative responsibilities and bilingual communication aligns well with my professional approach.

In my work as a web developer, I regularly coordinated with clients and team members to understand requirements, track project milestones, and ensure timely delivery. This required clear communication, attention to detail, and the ability to manage multiple tasks simultaneously. I became comfortable handling inquiries, documenting processes, and maintaining organized workflows.

One area that particularly interests me is the emphasis on customer service and order processing. In my previous roles, I managed client communications, tracked project statuses, and ensured that deliverables met expectations. I am used to working with structured processes and maintaining accurate records, which I believe translates well into administrative and customer support functions.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application. I look forward to the possibility of contributing to your team.

Sincerely,

Md Shahanur Islam Shagor
