I am writing to apply for the Analista de Relacionamento com o Cliente Jr Remoto position at Shopper.com.br. Your company's informal and straightforward culture stands out to me, and I appreciate environments that focus on substance over unnecessary formalities.

Although my professional background is in software engineering, I have consistently worked in client-facing roles where clear communication and relationship management were essential. In my previous work as a Web Developer, I collaborated directly with stakeholders to understand their needs, translate technical requirements, and ensure timely delivery of solutions. This experience has given me strong interpersonal skills and the ability to build trust with clients.

I am comfortable working independently in remote environments and have a track record of being reliable and responsive. I understand that client relationship roles require patience, active listening, and the ability to solve problems efficiently. I bring these qualities along with a structured approach to managing interactions and follow-ups.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
