I am writing to apply for the HR Administrative Assistant position at Atlantic Health Strategies. Your focus on partnering with mission-driven organizations aligns with my own approach to work: building reliable systems and supporting teams to operate effectively.

Although my professional background is in software engineering, I have developed strong organizational habits, clear communication practices, and the ability to manage multiple priorities while working remotely. My experience collaborating with international teams has taught me how to coordinate tasks, maintain documentation, and ensure nothing falls through the cracks.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am comfortable working independently in a remote setting and understand the importance of reliability, attention to detail, and follow-through in administrative support roles.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
