I am writing to apply for the Graphic Designer position at Swoon. The opportunity to create high-impact presentations and visual narratives for sales, marketing, and executive communications aligns with my experience in designing polished, user-focused interfaces and visual systems.

Through my work as a full-stack and AI engineer, I have developed a strong understanding of visual hierarchy, typography, and layout. I have used Figma extensively to design responsive, brand-consistent user interfaces for web and mobile applications. This experience has given me a practical eye for translating complex concepts into clean, compelling visual communications.

In previous professional roles, I have collaborated closely with cross-functional teams including marketing, sales, and product stakeholders. I am comfortable working under tight deadlines, managing multiple projects simultaneously, and ensuring that every deliverable reflects strong design standards and brand consistency.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
Full-Stack Developer & AI Engineer
