I am writing to apply for the Sales Director, Americas position at Kinisla. Your vertically integrated farm-to-fork model and commitment to sustainable dairy innovation are impressive, and I appreciate the focus on growing the nutritional ingredients business across the Americas.

My professional experience is in software engineering, where I have spent over four years building and delivering full-stack web applications. Through this work, I have developed strong skills in cross-functional coordination, stakeholder communication, and project execution. I have led technical initiatives that required close collaboration with clients, R&D teams, and operations to ensure timely delivery and high-quality results.

One area that particularly interests me is the commercial ownership and strategic account management described in this role. In my previous work, I have taken full responsibility for project delivery, from initial concept through launch, managing budgets, timelines, and cross-team coordination. This has given me a practical understanding of how to balance customer needs with business objectives while driving growth.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my background in project delivery and cross-functional leadership can contribute to Kinisla’s growth in the Americas.

Sincerely,

Md Shahanur Islam Shagor
