I am writing to express my interest in the Call Center Agent Quality position at Aljazira Bank. Your focus on quality assurance, customer satisfaction, and regulatory compliance aligns with my approach to delivering reliable and structured work.

Although my professional background is in software engineering, I have developed strong analytical and problem-solving skills through building and maintaining production systems. My work has required me to understand user requirements, troubleshoot issues methodically, and ensure that every detail is handled accurately. These skills translate directly to maintaining call quality standards and supporting customer satisfaction targets.

In my previous roles, I have worked closely with cross-functional teams to resolve issues, document processes clearly, and follow compliance requirements. I am comfortable working independently in a remote environment and understand the importance of adhering to policies and regulatory standards.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how my background can contribute to the quality and customer service goals at Aljazira Bank.

Sincerely,

Md Shahanur Islam Shagor
