I am writing to express my interest in the Steuerberater position at Taxtalente.de for their partner firm in Flein. While my professional background is in software engineering, I bring a strong analytical mindset, attention to detail, and a proven ability to learn complex systems quickly.

In my previous work as a Web Developer, I was responsible for building and maintaining scalable applications, managing databases, and ensuring data integrity across multiple systems. These responsibilities required careful, efficient, and conscientious work habits that I believe translate well into tax advisory and financial review work.

I am open to digital ways of working and have hands-on experience with modern tools and platforms. I am comfortable working with structured data, automating workflows, and maintaining accuracy under pressure. I am also experienced in collaborating across teams and communicating clearly with stakeholders.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my skills could contribute to your partner firm.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
