I am writing to apply for the Election Officials position with the City of New Westminster. This role appeals to me because it offers an opportunity to contribute to the integrity and smooth operation of the electoral process in a community-focused environment.

Through my professional experience as a Web Developer, I have developed strong organizational skills, attention to detail, and the ability to manage multiple tasks under deadlines. These qualities are directly applicable to supporting election operations, where accuracy, reliability, and process adherence are essential.

I am comfortable working with structured workflows, handling data carefully, and following established procedures. My technical background also means I can quickly adapt to any digital tools or systems used in the election process.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how I can support the City of New Westminster’s election team.

Sincerely,

Md Shahanur Islam Shagor
