I am writing to apply for the Berater:in fˆ…r das Projekt "handicap" position at Arbeit und Leben DGB/VHS Hamburg e. V. Your organization's commitment to fostering inclusion, participation, and self-determination in the workplace resonates with me. I am particularly drawn to the project's mission of supporting works councils and disability representatives in creating more inclusive workplaces.

Although my professional background is in software engineering, I have developed strong skills in documentation, reporting, and stakeholder communication that are directly applicable to this role. In my experience as a Web Developer, I regularly produced detailed technical documentation, project summaries, and progress reports for diverse audiences. I also facilitated knowledge-sharing sessions and collaborated with cross-functional teams to ensure alignment on project goals.

One area that particularly interests me is the creation of accessible information materials and educational content. I have experience writing clear, structured documentation and developing training resources for both technical and non-technical users. I am confident in my ability to produce the Fachbeitrˆge, Arbeitshilfen, and Informationsmaterialien required for this project.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am eager to contribute to the important work of your organization and would welcome the opportunity to discuss how my skills can support the handicap project. I have attached my CV for your review and look forward to hearing from you.

Sincerely,

Md Shahanur Islam Shagor
