I am writing to apply for the Customer Support Associate position at Max Retail. Your mission to build the largest supply chain that holds no inventory by connecting independent retailers with global demand is a compelling approach to solving real inventory challenges in retail.

Through my professional experience as a Web Developer, I have developed strong communication skills and the ability to work efficiently across teams. I am comfortable supporting customers via phone, email, and live chat, and I understand the importance of maintaining a positive, empathetic, and professional attitude even when handling difficult issues.

I am highly organized and skilled at multitasking while maintaining attention to detail. I am also comfortable learning new systems quickly and working with multiple platforms simultaneously, which aligns well with the need to manage orders and customers across partner channels and Max Retail's platform.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
