I am writing to apply for the General Virtual Assistant position at Ateneo de Manila University. Your need for a reliable, detail-oriented professional who can manage administrative and communication tasks remotely aligns well with my background.

Through my remote work experience as a Web Developer, I have developed strong organizational habits and the ability to manage multiple priorities independently. I am comfortable handling email correspondence, scheduling, document preparation, and providing consistent administrative support without direct supervision.

I am proficient with Google Workspace (Gmail, Docs, Sheets, Calendar) and Microsoft Office tools. My daily workflow has involved managing project documentation, coordinating with international teams across time zones, and maintaining clear communication records.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have my own reliable equipment, a stable high-speed internet connection, and a quiet professional workspace. I am fully available to work U.S. business hours and can start contributing immediately. I have attached my CV for your review.

Sincerely,

Md Shahanur Islam Shagor
