I am writing to apply for the Contractual Bookkeeper position at Ateneo de Manila University. While my professional background is in software engineering, I bring strong organizational discipline, attention to detail, and experience managing digital information systems that align well with the responsibilities of this role.

Through my work as a web developer, I have managed complex file structures, maintained organized documentation, and worked extensively with cloud storage platforms including Google Drive. These experiences have developed my ability to handle electronic files systematically and ensure they are easily retrievable for authorized personnel.

One area that particularly interests me is the opportunity to apply my organizational skills to financial recordkeeping and manual bookkeeping tasks. I am comfortable working with spreadsheets, tracking expenses, and maintaining accurate records. I understand the importance of confidentiality when handling financial documents and am committed to discretion.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am available for the full 4 to 6 month contractual engagement and have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
