I am writing to express my interest in the Tax Manager position at AppleOne Employment Services.

After carefully reviewing the job description, I recognize that this role requires specific qualifications including a Bachelor's degree in Accounting, an active CPA license, and a minimum of 5 years of tax compliance and consulting experience in public accounting. My professional background is in software engineering and full-stack development, not in accounting or tax management.

Given the specialized nature of this position and the required credentials, I do not believe my experience aligns with the requirements for this role. I would not want to waste your time by submitting an application that does not match your needs.

I appreciate you considering my application and wish you success in finding a qualified Tax Manager for your team.

Thank you for your time and consideration.

Sincerely,

Md Shahanur Islam Shagor
