I am writing to apply for the Coaching Team position at Ellipsis Academy. Your focus on Math and Tech Programs, along with Math Competitions and educational content, aligns with my background in software engineering and my interest in teaching and mentoring.

Through my professional experience as a Web Developer, I have built and delivered full-stack applications using Laravel, Next.js, React, and Node.js. I have also worked with databases like MySQL and PostgreSQL, and deployed applications on cloud platforms. This technical depth allows me to teach programming concepts clearly and practically.

One area that particularly interests me is designing structured learning paths for students. In previous roles, I have guided junior developers and interns through code reviews and knowledge-sharing sessions. I can bring that same approach to coaching students in tech programs and math competitions.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how I can contribute to Ellipsis Academy’s coaching team.

FELICITATE

Sincerely,

Md Shahanur Islam Shagor
