I am writing to apply for the Projektingenieur / Landschaftsarchitekt position at Stowasserplan GmbH & Co. KG. Your team's focus on creating sustainable and innovative solutions for ecological water development is genuinely compelling.

My professional background is in software engineering, where I have spent over four years managing the full lifecycle of technical projects. This experience has given me a structured approach to planning, execution, and stakeholder communication. I am accustomed to breaking down complex requirements into actionable steps, coordinating with multiple parties, and ensuring that projects are delivered on time and to specification.

One area that particularly interests me is the coordination aspect of this role. In my previous work, I have regularly communicated with clients, planning partners, and team members to align on goals and resolve challenges. I am confident that my ability to manage project workflows and maintain clear communication would translate well to coordinating with Auftraggebern, Planungspartnern, and Genehmigungsbehˆ¶rden.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am eager to contribute to your team's meaningful work in ecological water engineering. I have attached my CV for your review and look forward to the possibility of discussing how my project management and coordination skills can support Stowasserplan's projects.

Sincerely,

Md Shahanur Islam Shagor
