I am writing to express my interest in the Steuerberater (m/w/d) position at Taxtalente.de for a partner firm in Illmensee. While my professional background is in software engineering rather than tax advisory, I bring strong analytical thinking, a careful and efficient working style, and genuine openness to digital workflows.

Through my work as a Web Developer, I have built and maintained complex systems using Laravel, Next.js, and React. I am comfortable with modern digital tools and processes, and I approach every task with thoroughness and attention to detail. These qualities translate well into environments that require precision and structured thinking.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am interested in roles where I can contribute meaningfully while continuing to grow professionally. I am open to discussing how my skills could align with the needs of your partner firm in Illmensee.

I have attached my CV for your review and would welcome the opportunity to speak further.

Sincerely,

Md Shahanur Islam Shagor
