I am writing to express my interest in the Content Creator UGC role at Twine. Creating authentic, relatable content that resonates with real audiences is something I have practiced throughout my technical career, whether through project documentation, demo walkthroughs, or explaining complex systems in simple terms.

Through my work as a full-stack developer, I have produced a range of content including technical blog posts, video demonstrations, and written guides for platforms I built. I understand the importance of tone, clarity, and audience awareness when communicating ideas, and I enjoy the process of turning technical concepts into accessible narratives.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how my background in content creation and technical communication can contribute to Twine’s projects.

Thank you for your time and consideration.

Sincerely,

Md Shahanur Islam Shagor
