I am writing to apply for the Werkstudent (gn) Marketing & Recruiting position at OST BAU. The combination of marketing and recruiting responsibilities, along with the opportunity to support employer branding and event coordination, aligns well with my background in web development and content creation.

Through my professional experience as a Web Developer, I have developed strong skills in website management, content creation, and cross-functional collaboration. I have written and edited content for websites, created marketing materials, and supported internal communication efforts. These experiences have given me a solid foundation in producing clear, audience-focused content and maintaining an organized workflow.

One area that particularly interests me is employer branding and social media. I have hands-on experience developing content that engages target audiences and increases visibility. I am comfortable researching topics, writing press-ready texts, and designing presentations that communicate key messages effectively. I also enjoy supporting event logistics and ensuring smooth operations during team activities.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how my skills can contribute to your team at OST BAU.

Sincerely,

Md Shahanur Islam Shagor
