I am writing to apply for the IT-Support Spezialist position at OST BAU. Your focus on maintaining reliable IT operations and supporting users across the organization aligns with my technical background and problem-solving approach.

Through my professional experience in software development and system administration, I have developed strong skills in Linux, Docker, Nginx, and Apache. I am comfortable diagnosing technical issues, configuring hardware and software components, and providing clear solutions to end users. My experience with ticket-based workflows and structured troubleshooting has prepared me to handle the day-to-day responsibilities of IT support effectively.

One area that particularly interests me is the opportunity to contribute to the continued development of your IT infrastructure. I have experience maintaining and improving server environments, managing deployments, and ensuring system reliability. I am confident I can support your team in resolving issues promptly and maintaining a stable IT environment for all users.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my skills can contribute to OST BAU. Thank you for your time and consideration.

Sincerely,

Md Shahanur Islam Shagor
