I am writing to apply for the Agente de Viajes Online position at Viajes Marchante. The opportunity to contribute to a project within the tourism sector is one I find genuinely interesting, and I believe my background in building full-stack web platforms for travel businesses aligns well with your needs.

Through my professional experience as a Web Developer, I have designed and developed full-stack web applications for the travel industry. One example is a complete travel agency platform for 2Expedition in Armenia. I built the frontend using Next.js, TypeScript, Material UI, and Tailwind CSS, and developed the backend API with NestJS, TypeScript, MySQL, and TypeORM. The platform supports multiple languages and currencies, integrates Google Maps for location-based features, and was deployed on AWS Amplify and EC2.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how my experience can support Viajes Marchante’s tourism project.

Thank you for your time and consideration.

Sincerely,

Md Shahanur Islam Shagor
