I am writing to express my interest in the Social Media Manager Fashion Brand position at Twine. While my professional background is rooted in software engineering and AI, I have developed a strong understanding of digital identity and user engagement through building full-stack web applications.

In my previous work as a Web Developer, I designed and developed responsive, SEO-friendly interfaces using Next.js, Tailwind CSS, and modern JavaScript frameworks. These projects required a keen eye for visual presentation and user experience, skills that are directly transferable to managing a brand's social media presence.

One area that particularly interests me is the intersection of technology and brand storytelling. I have experience creating platforms that communicate clearly and effectively with diverse audiences, and I am eager to apply this mindset to shape the digital identity of a premium fashion brand.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my background can contribute to the Twine team.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
