I am writing to apply for the Data Entry Clerk position at RG&T Solutions. The opportunity to contribute to data collection projects remotely aligns well with my work style and current availability.

Through my professional experience as a Web Developer, I have developed strong attention to detail and accuracy when handling data. Working with databases like MySQL, PostgreSQL, and MongoDB required me to input, verify, and maintain data integrity consistently. I am comfortable following structured guidelines and meeting deadlines.

I am self-motivated and experienced in working independently on remote projects. My background includes managing multiple tasks efficiently while maintaining clear communication with team members and supervisors.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and welcome the opportunity to discuss how I can contribute to your team.

Sincerely,

Md Shahanur Islam Shagor
