I am writing to apply for the Administrative Assistant Research Panel position at RG&T Solutions. This part-time remote role aligns well with my ability to manage documentation, coordinate communication, and support research workflows efficiently.

Through my experience as a software engineer, I have developed strong organizational habits and a detail-oriented approach to managing tasks. I regularly handled data entry, scheduling, and record-keeping while coordinating across teams and ensuring accuracy in every deliverable.

I am comfortable working independently and meeting deadlines in a remote environment. My background includes maintaining clear documentation, responding to inquiries promptly, and supporting onboarding processes for new team members.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to contribute to your research projects and support your team’s administrative needs.

STRIVING

Sincerely,

Md Shahanur Islam Shagor
