I am writing to express my interest in the Datenerfasser position at Wirth Vermittlungen. Your focus on helping households reduce costs and increase income is practical and meaningful, and I appreciate the opportunity to contribute to this mission in a part-time capacity.

Through my work as a software engineer, I have developed a careful, accurate, and structured approach to handling data. Whether building database schemas, processing API responses, or debugging complex systems, I have always prioritized precision and consistency. These habits translate directly into fast and error-free data entry.

I am comfortable working independently and taking ownership of tasks, while also collaborating effectively within a team. I communicate clearly and adapt quickly to new workflows, which allows me to integrate smoothly into existing processes.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I would welcome the chance to discuss how my reliability and attention to detail can support your team. I have attached my CV for your review and look forward to hearing from you.

Sincerely,

Md Shahanur Islam Shagor
