I am writing to apply for the Campaign Manager position at ADBAKER. Your work as a leading TikTok Shop agency in Germany is impressive, and I am drawn to the opportunity to help scale high-performance social commerce strategies for major brands.

My professional background is in software engineering, where I have spent over four years building and delivering web applications for clients across different industries. This experience has given me a strong foundation in project coordination, client communication, and structured execution. I have worked closely with stakeholders to understand requirements, manage expectations, and deliver results on time.

In my previous role as a Web Developer at Explo-IT, I collaborated directly with clients and internal teams to plan, build, and deploy digital products. I learned how to translate business goals into actionable plans, communicate progress clearly, and adapt quickly when priorities shifted. These skills translate directly into campaign and creator management, where clear briefings, reliable follow-through, and strong client relationships are essential.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am genuinely curious about TikTok Shop and social commerce, and I am ready to learn fast and take ownership. I have attached my CV for your review and would welcome the chance to discuss how I can contribute to your team.

Sincerely,

Md Shahanur Islam Shagor
