I am writing to apply for the Senior Sales Consultant position at Swiss Life Select. Your emphasis on structured processes, measurable results, and reliable execution aligns with how I approach my work.

In my professional experience as a Web Developer, I have consistently worked within defined frameworks, tracked progress against clear metrics, and ensured that every step of a project is documented and followed through. I am comfortable taking ownership of processes, maintaining standards, and delivering outcomes without needing constant oversight.

One area that particularly interests me is your focus on system loyalty and structured customer acquisition. I have experience managing client relationships with clear follow-ups and documented workflows, ensuring that nothing falls through the cracks. I value clarity in communication and prefer working within systems that prioritize accountability over ambiguity.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how my structured approach to process and results can contribute to your team.

Sincerely,

Md Shahanur Islam Shagor
