I am writing to apply for the Remote Project Scheduling Assistant position at Talentoma. This role aligns well with my experience in coordinating tasks, managing timelines, and communicating effectively across teams.

In my professional experience as a Web Developer, I have developed strong organizational and planning skills. I regularly managed project schedules, coordinated with multiple stakeholders, and ensured that milestones were met on time. This required clear communication, attention to detail, and the ability to adapt to changing priorities.

One area that particularly interests me is the fully remote nature of this role. I have worked remotely for several years and am comfortable managing my own schedule, staying productive, and maintaining clear communication with team members across different time zones.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how I can contribute to the Talentoma team.

Sincerely,

Md Shahanur Islam Shagor
