I am writing to apply for the Executive Assistant & Senior Project Manager position at BrainersHub GmbH. The opportunity to work directly with your Business Director and contribute to strategic healthcare projects is exactly the kind of environment where I can grow and deliver meaningful results.

My professional background has consistently involved acting as a central coordination point between technical teams, clients, and leadership. In my role at Explo-IT, I managed project timelines, prepared reports, tracked deliverables, and ensured that communication between developers and stakeholders remained clear and consistent. I am comfortable preparing presentations, following up on action items, and maintaining structure across multiple parallel workstreams.

One area where I have developed strong discipline is in managing priorities and deadlines. I have experience coordinating internal teams, setting realistic timelines, and ensuring that quality standards are met before deliverables are submitted. I approach each task with attention to detail and a focus on reliability, which I believe aligns well with the responsibilities described for this role.

In addition to my coordination experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how I can support your Business Director and contribute to your key client projects.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
