I am writing to express my interest in the Private Banking consultant role in Schwˆbisch Hall. Although my professional background is in software engineering, I bring a strong foundation in analytical problem-solving, structured client communication, and independent ownership of complex responsibilities.

In my work as a Web Developer, I have consistently managed end-to-end project delivery, collaborated directly with stakeholders, and translated technical decisions into clear language for non-technical audiences. These experiences have developed my ability to build trust, communicate clearly, and take initiative in client-facing situations.

One area that particularly interests me is the opportunity to work with high-value clients in a structured, professional environment. I am accustomed to taking ownership of outcomes, maintaining long-term relationships, and approaching each interaction with precision and care.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my skills can contribute to your team.

Sincerely,

Md Shahanur Islam Shagor
