I am writing to apply for the Werkstudent Vertrieb / Finanzberatung position at Shereen Patzelt. What draws me to this role is the emphasis on structured onboarding, clear performance metrics, and a path toward professional growth in a results-driven environment.

As a Software Engineering student with hands-on project experience, I am accustomed to working with KPIs, tracking progress systematically, and improving outcomes through iterative feedback. In my previous work, I managed task pipelines, maintained clean documentation, and coordinated with team members to ensure reliable delivery.

One area that particularly interests me is the structured approach to customer interaction and process learning described in the role. I have experience analyzing situations, preparing structured materials, and following clear workflows to achieve consistent results. I am comfortable taking initiative and working independently toward defined goals.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am eager to bring my organizational skills, goal-oriented mindset, and willingness to learn to your team. I have attached my CV for your review and welcome the opportunity to discuss how I can contribute to Shereen Patzelt.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
