I am writing to apply for the Personalsachbearbeiter (m/w/d) position in Teilzeit at Port of Work Personalservice GmbH. Although my professional background is in software engineering, I bring strong organizational discipline, attention to detail, and a structured approach that translates well into administrative and HR-related work.

Through my experience as a web developer, I have developed a methodical way of managing data, documents, and workflows. I am comfortable working with spreadsheets, maintaining accurate records, and handling repetitive tasks with consistency and care. These skills align well with the responsibilities of managing personnel files, time tracking data, and payroll preparation.

I am accustomed to working closely with different teams and stakeholders, ensuring that information flows accurately and on time. I value clear communication, reliability, and discretion when handling sensitive information.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am interested in this opportunity because it offers a chance to apply my organizational skills in a new domain. I have attached my CV for your review and welcome the chance to discuss how I can contribute to your team.

Sincerely,

Md Shahanur Islam Shagor
