I am writing to express my interest in the Area Sales Manager Chicago position at Garage Beer. Your brand's approach of taking light beer seriously while keeping things fun and straightforward resonates with me. I appreciate the focus on real people doing good work without unnecessary complexity.

While my professional background is in software engineering, I bring strong technical capabilities that directly support the analytical requirements of this role. I am comfortable working with data sources, identifying business opportunities, generating insights, and presenting information visually. My experience building full-stack applications has given me a structured approach to problem-solving and a capacity to learn new tools quickly.

In my previous work as a Web Developer, I collaborated closely with stakeholders and cross-functional teams to deliver results. I am dependable, self-aware, and easy to work with. I enjoy taking ownership of outcomes and building processes that drive measurable results.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
Full-Stack Developer & AI Engineer
