I am writing to apply for the Outside Sales Representative position at Omada.ai. Your mission to bring AI-powered marketing to Main Street businesses resonates with me. As someone who builds AI applications, I understand both the technology and the real gap small business owners face.

What stands out to me about Omada is the focus on being the trusted face in the community rather than just another online ad. I am comfortable walking into local shops, starting conversations, and showing owners how technology can work for them. I connect with people quickly and communicate clearly.

Through my work developing AI-powered platforms, I have seen how small business owners struggle to keep up with marketing technology. I can speak their language and explain complex tools in simple terms. I am also experienced with CRM workflows and tracking systems.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am ready to start immediately and would welcome the chance to discuss how I can contribute as a Territory Partner. I have attached my CV for your review.

Sincerely,

Md Shahanur Islam Shagor
