I am writing to express my interest in the Assistenz der Geschˆftsleitung (Schwerpunkt: Vertriebsinnendienst) position at SORGEN LOS GmbH. Your mission to protect entrepreneur families through a holistic emergency preparedness system is meaningful, and I appreciate the direct, purpose-driven culture you have described.

Although my professional background is in software engineering, I have developed strong organizational and process-oriented skills through managing complex projects, coordinating with multiple stakeholders, and ensuring reliable delivery. I am comfortable working autonomously, structuring workflows, and maintaining clear communication across teams.

One area that particularly interests me is the role's emphasis on filtering, prioritizing, and organizing sales-related tasks to give the managing director space to focus on strategic work. In my experience delivering full-stack applications, I regularly handled task prioritization, tracked project milestones, and ensured commitments were followed through. I am used to being a reliable point of contact between technical teams, clients, and management.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I would welcome the opportunity to discuss how my organizational skills, reliability, and structured approach could support your team. My CV is attached for your reference.

Sincerely,

Md Shahanur Islam Shagor
