I am writing to apply for the District Manager Denver North position at Divisions Maintenance Group. Your company's focus on delivering facility maintenance services to retail chains and distribution centers through technology-driven solutions is impressive. I am interested in contributing to a team that values proactive account management and quality service delivery.

My professional experience includes working with technology platforms and managing operational workflows. I have used smart applications, CRM software, and Microsoft Office tools to coordinate tasks, track performance metrics, and communicate with stakeholders. I am comfortable working independently and adapting to changing schedules to meet business needs.

In previous roles, I collaborated with cross-functional teams to ensure smooth project delivery and responded to escalations with a sense of urgency. I have experience managing provider relationships, conducting site visits, and identifying opportunities for additional services. I am accustomed to working in environments that require frequent travel and on-site activity.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how my background aligns with the needs of your team.

Sincerely,

Md Shahanur Islam Shagor
