I am writing to apply for the Air Ticketing Executive Ground Staff position at MILLENNIUM GLOBAL SERVICE. The role of assisting passengers with ticketing operations and ensuring smooth airport processes is one I approach with a focus on accuracy, clear communication, and reliability.

Although my professional background is in software engineering, I have developed strong organizational skills, attention to detail, and the ability to work effectively under structured workflows. These qualities transfer well into the ticketing environment, where precision and customer interaction are essential.

In previous work, I have collaborated closely with teams and stakeholders to deliver results on time. I am comfortable handling responsibilities that require clear documentation, systematic processes, and direct communication with people from diverse backgrounds.

I am fluent in Bengali and English, with working knowledge of Russian and Hindi, which enables me to assist passengers from various regions comfortably. I am a quick learner and adapt easily to new systems and procedures.

I have attached my CV for your review. I would welcome the opportunity to discuss how my skills and work ethic can contribute to your team.

Sincerely,

Md Shahanur Islam Shagor
