I am writing to apply for the Head of Sales / Vertriebsleiter position at Investmentbuilder Group GmbH. Your company's focus on premium wealth architecture for entrepreneurs and high-income professionals is impressive, and I am drawn to the opportunity to build and lead a high-performance sales team from the ground up.

My background is in software engineering, where I have spent over four years designing, building, and optimizing complex systems. This experience has given me a strong foundation in process design, data-driven decision-making, and systematic problem-solving. I am accustomed to working with metrics, identifying bottlenecks, and implementing improvements that deliver measurable results.

In my previous work as a Web Developer, I have built full-stack applications that required careful coordination between multiple stakeholders, real-time data handling, and robust payment processing. I have experience with CRM-like systems, authentication workflows, and role-based access control, which translates directly to understanding the operational tools a sales team relies on daily.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
