I am writing to apply for the Mediengestalter & Medientechniker position at SIGMA System Audio-Visuell GmbH. Your work as a full-service provider for audiovisual solutions in conference rooms, event spaces, and working environments is impressive, and I am interested in contributing to your team in Dˆ…sseldorf.

Through my professional experience in web development, I have gained solid skills in creating, editing, and preparing digital media for various output formats. I am comfortable working with HTML, CSS, JavaScript, and content management systems to adapt content for displays, LED walls, and other digital media. I also have experience reviewing customer content for format, resolution, readability, and technical feasibility before deployment.

In previous roles, I have supported the technical setup and maintenance of digital systems, including testing, troubleshooting, and performing service tasks. I am familiar with managing playlists, updating content across platforms, and documenting technical changes. My experience with Linux servers, Docker, and monitoring tools has given me a practical understanding of maintaining reliable system operations.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
