I am writing to apply for the Architectural Draftsperson position at OsiLab. Your company's focus on turning bold ideas into production-ready outcomes aligns with how I approach my own work.

Through my experience as a full-stack developer, I have developed a strong eye for detail and precision when translating requirements into functional designs. Building complex web applications has taught me to work with structured specifications, maintain consistency across components, and ensure every element serves a clear purpose.

In previous work, I have collaborated with multidisciplinary teams to deliver projects on time while maintaining quality standards. I understand the importance of clear communication, accurate documentation, and following through on commitments.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how I can contribute to OsiLab's projects.

Sincerely,

Md Shahanur Islam Shagor
Full-Stack Developer & AI Engineer
