I am writing to apply for the Events Co-ordinator position at PiXL. While my professional background is in software engineering, I have developed strong coordination, communication, and organizational skills through managing complex technical projects and collaborating with diverse teams across multiple time zones.

In my previous roles, I was responsible for planning and executing project timelines, coordinating between developers, designers, and stakeholders, and ensuring that deliverables were completed on schedule. These experiences have given me a practical understanding of how to manage priorities, communicate clearly, and keep projects moving forward even when working remotely.

I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am comfortable working independently, managing my own schedule, and adapting to changing priorities. I am confident that my ability to organize, communicate, and deliver results would allow me to contribute meaningfully to the PiXL team.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
