I am writing to apply for the Praktikum Design / Grafikdesign position at Growthartig GmbH. Your focus on creating performant, visually compelling creatives for real client projects aligns directly with my interest in design and visual communication.

I have practical experience with Figma and a solid understanding of layout, typography, and color theory. I am comfortable adapting assets across different formats and incorporating feedback to refine designs. I am eager to apply these skills to social media ads, presentations, and internal marketing materials.

What stands out to me about Growthartig is the opportunity to work closely with a creative team on real campaigns and gain insight into how design drives performance in a growth marketing agency. I am structured, hands-on, and ready to contribute from day one.

In addition to my design experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV and portfolio for your review. I would welcome the chance to discuss how I can contribute to your creative team.

Sincerely,

Md Shahanur Islam Shagor
