I am writing to apply for the IT-Systemadministrator in Teilzeit position at KARRIEREMACHER GmbH. The opportunity to take on sole responsibility for IT operations in a respected notarial firm in Munich aligns well with my technical background and working style.

Through my professional experience, I have built a strong foundation in system administration and network management. I have worked extensively with Linux servers, configuring Nginx and Apache, managing Docker containers, and setting up CI/CD pipelines. My understanding of network fundamentals including TCP/IP, VPN, and firewall configuration allows me to maintain secure and reliable infrastructure.

In previous roles, I was responsible for deploying and maintaining web applications on cloud platforms such as AWS and Google Cloud. This included managing user access, coordinating with external vendors, and ensuring data security and backup procedures were followed. I also provided direct user support, troubleshooting hardware, software, and network issues for team members.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my skills can contribute to the stability and security of your client’s IT operations.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
