I am writing to apply for the Junior Recruiter (m/w/d) position at momox. Your mission of promoting sustainability through second-hand products is something I genuinely value, and I would be glad to contribute to your recruiting team in Leipzig.

While my background is in software engineering, I have developed strong organizational and coordination skills through managing complex projects and collaborating across teams. I am comfortable handling multiple responsibilities, supporting people through processes, and maintaining clear communication under pressure.

In my previous roles, I coordinated with stakeholders, managed timelines, and ensured smooth workflows between technical and non-technical team members. I am used to supporting candidates and colleagues with patience and clarity, and I enjoy helping people navigate processes from start to finish.

I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy working in international environments. I am eager to learn, contribute to your team, and grow within momox.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
Full-Stack Developer & AI Engineer
