I am writing to apply for the KfZ-Prˆ…fassistent & Fahrer fˆ…r Hol- und Bringservice position at HolDeinePlakette. Your company's focus on bringing efficiency and digital innovation to vehicle inspection services is something I find genuinely interesting.

Although my professional background is primarily in software engineering, I bring a strong sense of responsibility, technical understanding, and a structured approach to operations. I hold a valid driving license and maintain a safe, careful driving style. I am comfortable working with digital tools and managing documentation workflows accurately.

In previous roles, I have worked with digital systems, managed data, and coordinated tasks efficiently. I am used to following structured processes, maintaining attention to detail, and working reliably under responsibility. These habits transfer well to supporting inspection workflows, managing vehicle logistics, and representing a company professionally.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I would welcome the opportunity to contribute to your team and support the high standards HolDeinePlakette is known for. My CV is attached for your review.

Sincerely,

Md Shahanur Islam Shagor
