I am writing to apply for the MSK Physiotherapist Virtual position at IPRS Health. After reviewing the job description, I understand this role requires an HCPC-registered Physiotherapist with UK healthcare experience. My background is in software engineering and AI systems, not clinical physiotherapy.

I am a Full-Stack & AI Engineer with experience developing web applications, real-time communication platforms, and AI-powered systems. I have built projects involving Laravel, Next.js, React, Node.js, and various databases including MySQL and MongoDB. My work includes developing a real-time server health monitoring dashboard and a wireless vision-aid system using computer vision.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
Full-Stack Developer & AI Engineer
