I am writing to apply for the Marketing Coordinator position at RESOLUTE HR CONSULTING. The role's focus on digital platform operations, performance tracking, and operational workflows aligns with my experience in managing data-driven systems and coordinating cross-functional tasks.

In my previous work as a Web Developer, I regularly supported backend operations across digital platforms, tracked performance metrics, and maintained accurate records. I am comfortable working with spreadsheets, dashboards, and reporting tools to monitor conversion rates, engagement metrics, and traffic performance. My attention to detail and ability to follow structured workflows have been essential in delivering consistent results.

One area that particularly interests me is the opportunity to assist with platform updates, content organization, and product listings. I have hands-on experience coordinating with team members to improve digital platform efficiency and preparing performance summaries for internal review. I am confident in my ability to identify trends and summarize insights clearly.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how I can contribute to your team. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
