I am writing to apply for the Logistics Coordinator position at Altis Recruitment. While my professional background is in software engineering and full-stack development, I bring a strong foundation in coordination, workflow management, and cross-functional communication that aligns well with the responsibilities of this role.

In my previous work as a Web Developer, I regularly coordinated between clients, designers, and engineering teams to deliver projects on time and within scope. This required clear communication, attention to detail, and the ability to manage multiple priorities simultaneouslyâ skills that are directly transferable to logistics coordination.

I am fluent in English and Bengali, with working knowledge of Russian and Hindi, allowing me to communicate effectively across diverse teams and stakeholders. I am comfortable working fully remotely and am located in Canada.

I have attached my CV for your review. Thank you for considering my application.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
Full-Stack Developer & AI Engineer
