I am writing to apply for the Ausbildung Kauffrau/-mann fˆ…r Marketingkommunikation position at reboVet Veterinˆ‡r-Fachgroˆ handel GmbH und Co. KG. Your company's 45-year history of serving veterinary practices with over 30,000 products and tailored solutions is impressive, and I am interested in contributing to your marketing team while developing my skills in this field.

Through my professional experience as a Web Developer, I have developed strong organizational skills and attention to detail. I have worked on creating and managing content, coordinating production processes, and ensuring quality control across multiple projects. These experiences have taught me to work reliably and flexibly, qualities that align well with the requirements of this apprenticeship.

One area that particularly interests me is the opportunity to learn about developing communication concepts for campaigns and individual measures. My background in web development has given me practical experience with design tools and content creation, which I believe provides a solid foundation for working on catalogs, brochures, flyers, and advertisements. I am eager to apply my creativity and organizational skills to support reboVet's marketing efforts.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am a quick learner with strong problem-solving abilities and a genuine interest in economic contexts. I look forward to the possibility of contributing to reboVet's continued success while growing professionally through this apprenticeship. I have attached my CV for your review.

Sincerely,

Md Shahanur Islam Shagor
