I am writing to apply for the Teamleiter Vertriebsinnendienst position at MR-Shop GmbH. While my professional background is in software engineering, I bring strong process optimization, team coordination, and analytical skills that are directly transferable to leading an internal sales team.

In my work as a Web Developer, I have been responsible for structuring workflows, improving operational efficiency, and collaborating across departments such as logistics and accounting. I regularly analyze performance data, identify bottlenecks, and implement process improvements to meet delivery and quality targets.

One area that particularly interests me is the opportunity to develop and optimize sales processes from order processing through customer follow-up. My experience building and maintaining complex systems has given me a structured, data-driven approach to problem-solving and a clear understanding of how to use KPIs to drive results.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV and look forward to the possibility of contributing to MR-Shop GmbH’s continued success.

Sincerely,

Md Shahanur Islam Shagor
