I am writing to apply for the Kˆ…chenleitung position at Empowerland gUG for the summer camp taking place from 16.08. to 22.08.2026 in Mˆ¶dingen.

Although my professional background is in software engineering, I have developed strong organizational, planning, and coordination skills through managing complex technical projects. I am accustomed to working within defined budgets, coordinating with multiple stakeholders, and ensuring that operations run smoothly under time constraints.

I am a quick learner and a hard worker, and I am confident I can apply these skills to manage the kitchen for 30-40 people. I am comfortable with menu planning, food preparation, and maintaining a clean and efficient workspace.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am available for the full duration of the camp and can assist with food shopping using my own vehicle. I look forward to the opportunity to contribute to a great camp experience for the teens.

Sincerely,

Md Shahanur Islam Shagor
